This is why the entire lakes and surrounding area were declared a national park in 1949 and are listed on the UNESCO's list of World Heritage Sites because of its exceptional beauty. It is a valley situated between high forested mountains in which lie, one below another, a string of sixteen beautiful lakes of crystal blue and green waters. Fed by small streams and brooks, they spill into each other in 92 foaming cascades and thundering waterfalls. The lakes themselves cover about 2 square kilometres and the entire national park covers 200 square kilometres. The Plitvice lakes' scenery will simply delight you regardless whether you are walking the paths and wooden bridges, taking a boat ride or just taking photographs.
